

IQN Path

Publication

Policy

Last updated: 20 June 2019

Publication policy

- One author per EQA provider implied in the project
- The first and last name will be determined according to the implication on the project
- Any supplementary author should be validated by all the EQA provider and justified by the implication in the project
- In any case, an equal number of representatives for each EQA provider should be listed as co-author of collaborative projects
- The EQA that manages collaborative projects and holds the database is not the owner of the data.
- Secondary use of data require pre-authorisation of IQN Path and of all participating EQA providers and acknowledgement of contribution with authorship in any publication.
